

One-To-Many Portal

Provide a single source of truth by sharing real-time information with your suppliers

Supplier Benchmarking

Compare supplier performance metrics and rank suppliers by commodity

NCR Management

Resolve non-conformances through collaborative root-cause analysis

Secure Data Sharing

Control permission levels to only share information with authorised users

Standardise Workflow

Automate best practice workflows to streamline supplier collaboration.

Delivery Appeals

Suppliers can appeal delivery performance data to ensure accurate metrics are maintained

Traceability

Track who did what and when on all supplier communications to drive accountability

Demand Forecasting

Share current & future orderbook with suppliers to improve sub-tier visibility

Advanced Analytics

Analyse comprehensive performance reports and dashboards by site, commodity or supplier

Driving Supply Chain Improvements

"We have developed a closer relationship with our end customers because of the ability to provide a view of supplier performance via the system."

- Nuclear Tier 1

"On time in full (OTIF) delivery performance improved from 65% to 96% following implementation."

- Global Aerospace & Defence Tier 1
